ACKNOWLEDGMENTS—Many persons participated in the various activities of the 1978 Census of Agriculture. Primary direction was performed by **Shirley Kallek,** Associate Director for Economic Fields, and **Richard B. Quanrud,** Assistant Director for Economic and Agriculture Censuses.

This report was prepared in the Agriculture Division under the general supervision of **Orvin L. Wilhite,** Chief (to January 1980) and **Arnold L. Bollenbacher,** his successor. **Kenneth R. Norell,** Assistant Division Chief for Special Surveys, assisted by **John C. Womack,** Chief, Agricultural Services Branch, was directly responsible for planning and taking the Census of Agricultural Services and the compilation of statistics. The edit specifications were prepared by **Demosthenes Birbilis. Jeanette K. Mon** prepared the text. **Joseph T. Aqua** and **Nancy A. O'Neal** assisted in preparing and reviewing the statistical tables. **Georgia M. Buckley, Bessie R. Durant, Mildred G. Harman,** and **Nancy M. Ireson** made significant contributions in processing report forms, and in preparing publication tables and text. **William A. Harlan** and **Richard G. Pennell** directed the resolution of problems with individual census reports.

Systems and processing procedures were developed under the direction of **John E. Adkins,** Assistant Division Chief for Operations. Significant contributions in the development of the computer programs were made by **Allen J. Blackburn,** under the direction of **Stephen W. Schobel. Ronald D. Harris** was responsible for the computer table tabulations. Clerical procedures were developed under the direction of **Loyd C. Brown. Regina E. Lindsey** and **Karin G. Bauer** provided editorial services.

Don L. Adams, Chief, Data Preparation Division, Jeffersonville, Ind., assisted by **Rebecca Lamon** and **Darrell L. Farabee,** was directly responsible for clerical and data keying operations, and labeling, sorting, and mailing of census forms.

The computer processing facilities used were under the general supervision of **C. Thomas DiNenna,** Chief, Computer Operations Division.

Forms design was accomplished under the direction of **Henry J. Husmann,** Chief, Administrative Services Division, assisted by **Albert W. Cosner, Cathern S. Kline,** and **Irene A. Grey.**

Within the Publications Services Division, many individuals made significant contributions in publications planning and design, editorial review, composition, and printing procurement.

Important contributions to the determination of the content of the report form were made by personnel from the U.S. Department of Agriculture; U.S. Department of Commerce, Bureau of Economic Analysis; U.S. Department of Labor; Executive Office of the President (Office of Management and Budget); and various State Departments of Agriculture. Members of the Census Advisory Committee on Agriculture Statistics and a number of individuals representing research organizations, professional associations, other government agencies, and other groups also made significant recommendations and suggestions.

Special tribute is paid to the thousands of establishment operators and others who furnished the information requested in this census. Only through their cooperation was it possible to collect and publish the data in this report.

AUTHORITY, AREA COVERED, AND HISTORY

The 1978 Census of Agricultural Services is the third such census taken for the United States. It was conducted as part of the 1978 Census of Agriculture, in accordance with the provisions of title 13, United States Code. Sections 142(a) and 191 of title 13 provide for a periodic census of agriculture in each State, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands. The census of agricultural services was conducted primarily by mail, and covers each State and the District of Columbia.

AGRICULTURAL SERVICE ESTABLISHMENT

The 1978 Census of Agricultural Services was conducted on an establishment basis, where "establishment" is defined according to the 1972 Standard Industrial Classification (SIC) Manual and revised by the 1977 Supplement of the Office of Management and Budget, Executive Office of the President. For purposes of this census, an "agricultural service establishment" is an economic unit primarily engaged in performing for others on a fee or contract basis the following: Soil preparation services, crop services, veterinary services, animal services except veterinary, farm labor and management services, and landscape and horticultural services. In these activities, "primarily engaged" is defined as having received a greater amount of gross receipts for agricultural service activities than for any other SIC major group of activities in which the establishment may be engaged.

Note that agricultural services are often performed as a secondary activity by other establishments. For example, sorting, grading, and packing services are frequently performed by establishments which are primarily engaged in hauling (SIC 42—Motor freight transportation and warehousing), and custom grain grinding is sometimes performed by establishments mainly involved in manufacturing prepared feed (SIC 20—Food and kindred products). Many farm and ranch operators also perform agricultural services for others on a contract or fee basis as a secondary activity. Such secondary activities were excluded from this census.

A business concern or firm engaged in economic activities may consist of more than one establishment depending upon size, location, and relationship of its component activities. The census covers only those establishments primarily engaged in performing agricultural service activities.

SCOPE OF THE CENSUS

The 1978 Census of Agricultural Services was designed to cover the 1978 operations of all agricultural service establishments operating during the year in the United States. The data were collected from establishments primarily engaged in performing agricultural services. For a few cases in which respondents' records were kept on fiscal year basis, data reported for fiscal year 1977-78 were used. Report forms 78-A40A, 78-A40B, 78-A40C, and 78-A40D were used for reporting purposes (see appendix B). The census was conducted on a mailout/mailback basis as in the previous censuses, allowing the respondents to complete the report more nearly at their own convenience as compared to an enumerator-type census. Results from other censuses have shown that, in general, the quality of data on reports completed by respondents exceeds that of reports filled out by enumerators.

COMPARABILITY OF DATA

Comparability of data from the 1978 Census of Agricultural Services with previous census data have been affected by improvements in the coverage of the mail lists, the use of a higher minimum receipts value for inclusion in the tabulations, and modifications in the SIC Manual.

Approximately 352,900 names were included on the 1978 mail list as compared to 142,000 names on the 1974 mail list.

In general, data from the 1978 census are comparable with that of previous censuses. Data obtained for establishments having a dollar volume of business of less than $2,500 were omitted from the 1978 census. Since there is no satisfactory source list for these small establishments, complete coverage of these establishments was not obtained. Consequently, no attempt was made to include data from these establishments in the final tabulations of the 1978 census. The accuracy of the data collected for small establishments in previous censuses is questionable.

Completion of sections 13, 14, and 15 of the report forms was required only of incorporated establishments and those reporting more than $50,000 in total volume of business in 1978. It was discovered during the last census that the larger establishments were more able to provide this information with a minimum of difficulty.

Changes in the structure of the SIC system as a result of the 1977 Supplement to the 1972 SIC Manual also affect the comparability of data from the 1978 census with previous censuses. For example, in 1974, grist mill operators and establishments engaged primarily in hay or alfalfa cubing and custom flour, feed, or grain milling were classified as agricultural service establishments. However, in 1978, these establishments were deleted from the major group 07 and, therefore, were excluded from

the census. In view of the addition of irrigation system operation services to the major group 07, data for this agricultural service activity are available for the 1978 census.

RELIABILITY OF DATA

All phases of the census processing were planned to ensure reliable census data. The completed forms were clerically reviewed, keyed to magnetic tape, and then checked by computer for internal consistency. Significant omissions and inconsistencies were resolved by contacting the respondent (by telephone or letter) or by comparison with similar reports. Also during the corresponding stage, efforts were made to obtain completed report forms from nonrespondents. During the last census, certain sections (13, 14, and 15) of the report forms were found to be difficult for small and medium-sized establishments to complete. These sections were only required of corporations and those establishments reporting $50,000 or more in total gross receipts. Therefore, 1978 data concerning capital expenses, depreciable assets, and expenses for utilities and fuels obtained from these sections cover only those establishments.

This section summarizes the statistics from the 1978 Census of Agricultural Services. Data are presented for the number and types of agricultural service establishments in the United States in 1978 and their gross receipts, labor, and annual payroll for agricultural service activities.

NUMBER OF ESTABLISHMENTS

The statistics compiled for this census represent a total of 93,120 agricultural service establishments. The number of establishments in each State is shown in table A.

For this census, agricultural service establishments are categorized into six major industry groups by standard industrial classification for data presentation. The number of establishments in each group is:

Landscape and horticultural services (SIC 078)	46,584
Animal services, except veterinary (SIC 075)	16,890
Veterinary services (SIC 074)	15,551
Crop services (SIC 072)	9,850
Farm labor and management services (SIC 076)	2,769
Soil preparation services (SIC 071)	1,476

These six major industry groups are further broken down into 15 four-digit industry types. Lawn and garden service establishments is the predominant type, accounting for 74 percent of the establishments in the landscape and horticultural service group and 37 percent of all agricultural service establishments in the United States. Next are animal services, except veterinary, for dogs, cats, horses, bees, fish, rabbits, other fur-bearing animals, birds (except poultry), and other pets which make up 85.3 percent of the establishments in the animal

service, except veterinary, group and 15.5 percent of all agricultural service establishments.

Table B shows the three leading States ranked by number of establishments for individual establishment types and the corresponding percentages of each type for the United States.

GROSS RECEIPTS

Gross receipts for agricultural services from all establishments in 1978 totaled about $7.25 billion or an average of nearly $78,000 per establishment. The median amount per establishment was approximately $25,000. The distribution of establishments according to gross receipts size classes for the United States and the individual geographic regions—Northeast, North Central, South, and West—show that the West leads in the concentration of establishments in the "less than $10,000" class. This region also has the highest concentration in the classes between $10,000 and $100,000.

The distribution by State of gross receipts for agricultural services is shown in chart 1. Table C shows the States ranked by gross receipts.

Of the six industry groups of agricultural service establishments, landscape and horticultural services account for 36.4 percent of the gross receipts for agricultural services, crop services for 23.1 percent, and veterinary services for 21.4 percent. Farm labor and management services; animal services, except veterinary; and soil preparation services make up the remaining 19.1 percent of the total receipts.

Lawn and garden services is the industry type with the largest proportion of gross receipts for agricultural services. It accounts for 54.2 percent of all receipts from landscape and horticultural services, and 19.7 percent of the U.S. total receipts from agricultural services. Veterinary services for dogs, cats, horses, bees, fish, rabbits, other fur-bearing animals, birds (except poultry), and other pets are second in gross receipts, accounting for 78.7 percent of the veterinary service industry group and 16.8 percent of the U.S. total receipts from agricultural services.

When distributed by gross receipts size classes, the largest concentration of establishments is in the "less than $10,000" size class, totaling 26.9 percent of all establishments; the next largest is in the "$10,000 to $19,999" size class, totaling 18.5 percent. Establishments with gross receipts of $100,000 or more, while representing only 17.6 percent of all establishments, account for 71.8 percent of all receipts. Chart 2 shows the percentage distribution of establishments and gross receipts for agricultural services by gross receipts size class.

LABOR AND ANNUAL PAYROLL

The annual payroll for agricultural services during 1978 totaled over $2.55 billion. This amount covers over 332,000 paid employees working 150 days or more and nearly 662,000 paid employees working less than 150 days. The total number of unpaid workers includes about 43,000 persons working 150 days or more and approximately 29,000 persons working less than 150 days. Some of the persons working less than 150 days may have worked for more than one establishment during the year and, thus, may have been reported by two establishments or more. Therefore, the total number of persons engaged in agricultural service work for these establishments during 1978 is probably somewhat less than the total of 1,066,000.

The 10 leading States reported an annual payroll for agricultural services of $1.69 billion accounting for 66.4 percent of the U.S. total. Their relative share of the U.S. agricultural service payroll is shown in table D.

The landscape and horticultural service group had the largest proportion, 37.1 percent, of payroll in the agricultural service industry. Veterinary services was second with 20 percent, and crop services was third with 19.5 percent. Farm labor and management services had 15.1 percent; animal services, except veterinary, had 7 percent; and soil preparation services had 1.2 percent.

Farm labor and management services had the largest proportion, 36.4 percent, of paid (full and part-time) employees. Landscape and horticultural services had the second largest proportion with 28.1 percent, followed by crop services with 20 percent. The combined total of veterinary services; animal services, except veterinary; and soil preparation services represent the remaining 15.5 percent of the U.S. total.

The distribution of payroll and paid employees for agricultural services by industry group is shown in chart 3.

TYPE OF ORGANIZATION

While individual proprietorships account for 74.7 percent of the total number of agricultural service establishments, they account for only 37.1 percent of the gross receipts and 27.4 percent of the annual payroll. On the other hand, corporations account for 50.5 percent of the gross receipts and 61.9 percent of the annual payroll, while representing only 16.3 percent of the total number of establishments.

Chart 4 presents a comparison of these organizations by number of agricultural service establishments, gross receipts, and payroll. The average gross receipts and annual payroll for agricultural services for the four types of organizations are shown in table E.

AGRICULTURAL SERVICE ACTIVITIES

The leading geographic regions and States for each agricultural service activity by gross receipts and the corresponding percentages of the activity totals are shown in table F.

The 20 leading agricultural service activities by gross receipts and their percentages of the U.S. total are shown in table G. These 20 activities represent nearly 90 percent of the U.S. total in 1978.

AGRICULTURAL SERVICE INDUSTRY GROUPS

The landscape and horticultural service group had the largest number of establishments totaling 46,584 (50 percent) of the U.S. total. This group also led in gross receipts with $2.64 billion (36.4 percent) of the total gross receipts. In addition, landscape and horticultural services accounted for the largest portion of annual payroll with $947 million (37.1 percent) of the U.S. total.

Animal services, except veterinary, accounted for 16,890 establishments (18.1 percent) of the U.S. total. This group accounted for $634 million (8.7 percent) of total gross receipts and $178 million (7 percent) of annual payroll.

Veterinary services accounted for 15,551 establishments (16.7 percent) of the U.S. total. This group accounted for $1.55 billion (21.4 percent) of total gross receipts and $510 million (20 percent) of annual payroll.

Crop services ranked next in number of establishments representing 9,850 (10.6 percent) of the U.S. total, but ranked second in total gross receipts with $1.68 billion (23.1 percent) and third in annual payroll with $498 million (19.5 percent).

The farm labor and management services (SIC 076) and soil preparation service (SIC 071) industry groups accounted for the remaining 4,245 establishments (4.6 percent) of all establishments. These two groups had gross receipts of $752 million (10.4 percent) and an annual payroll of $417 million (16.3 percent) for the industry.

Chart 5 presents a comparison of the six industry groups by number of agricultural service establishments, gross receipts, and annual payroll.

NEED FOR THE CENSUS

During the last three decades, the role of the self-reliant American farm has given precedence to the increasingly specialized industry of agricultural services. Since the mid-1940's, the growing use of off-farm resources in the production and harvesting process has presented a need for innovative developments in American agriculture. The technological and scientific changes in agriculture have been directly related to the development of the agricultural service industry. A census of this industry is essential to provide facts necessary for:

a. A broader view of today's farm production practices.
b. A better understanding and interpretation of long-term agriculture changes and trends.
c. A more meaningful analysis of interrelationships of agricultural production and agricultural services.

Only a limited amount of data have been previously available on the agricultural service establishment industries. This is the third census to compile extensive data on the subject.

MAILOUT AND RECEIPT OF FORMS

Mail List

The mail list for the 1978 Census of Agricultural Services was developed to include all persons and organizations primarily engaged in performing agricultural services during 1978. The list was assembled primarily from census records identifying establishments associated with agricultural services and from the records of other government agencies as well as lists from various trade organizations. Lists of those filing Forms 990C, 1040C, 1040F, 1065, 1120, and 1120S were obtained from the Internal Revenue Service.

From these lists, agricultural service establishments were identified. Lists of employers of agricultural service employees filing Form 943 (Employer's Annual Tax Return for Agricultural Employees) or Form 941 (Employer's Quarterly Federal Tax Return) were also obtained. Various trade associations representing different agricultural service industry groups assisted in development of the mail list by providing membership lists of their organization. Lists of multiestablishment companies consisting of one or more establishments (or locations) which provided agricultural services were obtained from the 1974 census and were updated using results of the 1976 and 1977 Company Organization Surveys conducted by the Economic Surveys Division of the Census Bureau. The 1978 Farm and Ranch Identification Survey also identified additional agricultural service establishments. The final master list (352,900 names) was developed by merging and unduplicating the various source lists on the basis of Social Security number, Employer Identification number, or by name and address.

Report Forms

The report forms used in the 1978 Census of Agricultural Services were tailored for easier response from specific industry groups (see appendix B). Four agricultural service report forms were prepared:

Form A40A for soil preparation services, crop services, and cotton ginning.
Form A40B for veterinary and animal services.
Form A40C for landscape and horticultural services.
Form A40D for all agricultural service establishments.

During the process of compiling the mail list, the form type was assigned to each establishment in view of the agricultural service activity associated with the operation. In cases where the type of activity could not be determined, the Form A40D which covered all types of agricultural service activities was assigned.

Collecting the Data

The initial mailout package of the 1978 Census of Agricultural Services was made throughout the second and third week of January 1979 and consisted of a report form, duplicate file copy, information sheet, transmittal letter, and a return envelope. All persons and organizations on the mail list were requested to return the completed form by February 15. After allowing a reasonable period of time for response, a mail followup of all nonrespondents was initiated. The followup procedure consisted of a series of six form letters which were mailed out to nonrespondents. Additional report forms were sent with the second and fourth followup letters, telephone calls were made to significantly large establishments, and nonrespondents which had reported $100,000 or more in gross receipts in the last census were also contacted by telephone. Concurrent with and continuing after the nonrespondent followup stage was the correspondence stage for incomplete or questionable reports. The telephone and letter correspondence phase continued into the office processing stage

PROCESSING

All reports were initially reviewed by clerks to ensure that the report form: Represented an operation primarily engaged in providing an agricultural service; met the requirement of a

minimum $2,500 in gross receipts; and provided satisfactory information concerning the establishment. Questionable or problem reports were referred to professional analysts of the Agriculture Division. Omissions, inconsistencies, and other problems that could not be resolved by reference to other information on the report were resolved by contact (telephone or letter) with the respondent.

After all reports of establishments had been reviewed, the information was encoded to magnetic tape and subjected to a thorough computer edit analysis. The computer program provided for the examination of all reports for consistency and completeness, made necessary imputations and changes, and recorded all actions on printouts for subsequent review. Gross inconsistencies were referred for professional review and editing. The corrected data were then tabulated by the computer and subjected to final review prior to publication.

COVERAGE

Although a complete and fully accurate account of agricultural service establishments was the aim of this census, various factors prevented such an ideal. Among these factors are the difficulty of obtaining a complete and unduplicated list of all agricultural service establishments, the inability to locate and identify operators who have changed addresses, and the fact that some respondents believe their establishments should not be included in the census.

The 15 percent nonresponse rate at the conclusion of the regular census followup period led to a canvass of all preidentified establishments with $100,000 or more in gross receipts and 3,000 other random nonrespondents by telephone. Of the 3,000 nonrespondents examined, only a 12-percent "in-scope" rate was found and, thus, there were no nonresponse adjustments made to the census totals. Therefore, the figures in this report are approximately 2 percent short. Also, it should be noted that problems with identifiable cotton gin report forms were solved based on data from secondary sources.

For 1978, approximately 352,900 names were included on the mail list. About 93,000 were found to be within the scope of the census. The remaining listings were designated as "out-of-scope," postmaster returns, or nonrespondents. As in past censuses, the low in-scope rate was due, in part, to the misclassification of establishments by the Internal Revenue Service and the Social Security Administration.

DEFINITIONS AND EXPLANATIONS

The following definitions and explanations relate primarily to those items in the tables that are considered to be inadequately described. Most of the definitions pertain to specific items on the report form, and some of the explanations supplement those represented on the report form.

Standard Industrial Classification (SIC)

The establishment and activity coding in the 1978 Census of Agricultural Services relates specifically to the structure of the standard industrial classification as described in the 1972 SIC manual and the 1977 Supplement, prepared by the Statistical Policy Division of the Office of Management and Budget.

The SIC is a classification structure encompassing the various facets of the entire national economy. It was developed for use in classifying establishments by type of activity in which they are engaged to facilitate the collection, tabulation, and publication of data relating to establishments and to promote uniformity and comparability in the presentation of statistical data by government agencies, trade associations, research organizations, and others.

Agricultural Service Industry

The agricultural service industry is defined as the aggregate of activities included in SIC major group 07—agricultural services (see appendix C). These activities are categorized into six (SIC) three-digit industry groups: Soil preparation services; crop services; veterinary services; animal services, except veterinary; farm labor and management services; and landscape and horticultural services. These industry groups are subclassified into 15 four-digit industries.

Census Classification of Agricultural Service Establishments

Establishments included in the agricultural service census were assigned activity codes. Since more detailed classifications were needed than those defined in the SIC manual, 25 five-digit agricultural service activity codes were defined within the four-digit industries.

For each establishment report, the activities which were the primary sources of gross receipts for agricultural services determined the type of classification. For example, if a report indicated gross receipts of $10,000, $4,000, and $7,000 for activities 07821, 07831, and 07832 respectively, the establishment type was coded 0783, since 07831 and 07832 together accounted for the greatest amount of gross receipts, and was included in the 0783 industry classification for tabulation purposes.

Agricultural Service Activities

Below are brief descriptions of the agricultural service activities covered by this census and of the relationship of the activities to the operations of which they are frequently a part.

071 SOIL PREPARATION SERVICES

07110 Plowing or land breaking—This activity is performed for farmers, frequently by other farmers who have the necessary farm equipment and machinery. If performed as a small sideline to a farm operation, the customwork is covered as a secondary activity by the census of agriculture. However, if performed on a large scale in addition to farming, this service is covered separately as an agricultural service establishment.

07111 Harrowing or seedbed preparation—This service is similar to 07110. It includes such work as disking and tilling. Occasionally, harrowing and seedbed preparation are performed in addition to such services as bulldozing, land clearing, and land

leveling. When such other services constitute the primary activity of an establishment, the establishment is included in the census of construction and is classified in SIC major group 16.

07112 Fertilizer and lime spreading before planting—Custom spreading of lime and fertilizer is frequently performed in conjunction with the retail sale of fertilizer, chemicals, and lime. When such sales are the primary activity of an establishment, the establishment is covered by the census of business and is classified in SIC major group 51.

07113 Weed control before planting—This service involves weed control either by plowing land before planting or by the application of chemicals.

07119 Other soil preparation services—This activity involves establishments primarily engaged in performing such services as soil fumigation for nematode control and other specialized soil management practices. It also includes all other soil preparation services not elsewhere classified.

072 CROP SERVICES

Planting, Cultivating, and Protection

07210 Planting with or without fertilizer—This service includes the planting of crops with or without the application of fertilizer. If performed as a small sideline to a farm operation, the customwork is included as a secondary activity by the census of agriculture. However, if performed on a large scale in addition to farming, this service is covered separately as an agricultural service establishment.

07211 Fertilizer spreading (only) after planting—Custom spreading of fertilizer is frequently performed in conjunction with the retail sale of fertilizer, chemicals, and lime. When such sales are the primary activity of an establishment, the establishment is covered by the census of business and is classified in SIC major group 51.

07212 Aerial dusting and spraying for disease and insect control with or without fertilizer (including seeding)—This service is provided for controlling insects and diseases with or without the application of fertilizer. It also includes establishments performing aerial seeding. Establishments which are primarily furnishing air transportation or operating airports are classified in SIC major group 45.

07213 On-ground dusting and spraying for disease and insect control—This service has the same objective as 07212. The only difference is the method of application.

07214 Weed control after planting—This service involves mainly chemical weed control in crops after planting. Establishments engaged in disease and insect control are also frequently engaged in weed control. When sales of chemicals are the primary activity of an establishment, the establishment is classified in SIC major group 51.

07215 Citrus grove cultivation or maintenance—This service is provided to commercial citrus growers and includes such operations as cultivating, application of fertilizers, spraying for disease and insect control, pruning, and other specialized operations without management services. Establishments engaged in performing such operations with management services are classified in the appropriate specific industry within group 076.

07216 Cultivation, mechanical and flame, other than citrus grove—This service is performed to improve the physical and chemical composition of the soil for efficient production.

07217 Pruning of orchards or vineyards—This service is provided to commercial orchards or vineyards and involves the removal of surplus or undesirable growth. It can be performed mechanically or by hand using pruning equipment. Establishments engaged in performing such services with management services are classified in the appropriate specific industry within group 076.

07218 Irrigation services, custom—This service involves custom operational service of irrigation systems.

07219 Other planting, cultivating, and protection services—This activity includes bracing orchard trees and vines, hoeing around them, pollinating them, surgery on them, and thinning their fruits either mechanically or with chemicals. It also includes all other planting, cultivating, and protection services not elsewhere classified.

Harvesting, Primarily by Machine

07220 Corn for all purposes—This service involves the mechanical harvesting of corn for grain, silage, and greenchop.

07221 Wheat or other small grains (combining)—This service includes the combining of crops, such as wheat, oats, barley, rye, and sorghum. Hauling such crops to market is sometimes a part of a combining service operation. Establishments involved primarily in hauling are included in the census of transportation and are classified in SIC major group 42.

07222 Cotton—This activity involves the mechanical harvesting of cotton.

07223 Fruits or berries—This activity involves the mechanical harvesting of fruits or berries. When fruit harvesting is performed by hand and the labor is supplied by a labor contractor or crew leader, the service is classified in industry 0761.

07224 Vegetables—This activity involves the mechanical harvesting of such vegetables as string beans, tomatoes, and others suitable to mechanical harvesting. Establishments engaged primarily in vegetable production are classified in SIC major group 01.

07225 Soybeans, other beans, peas, or peanuts—This service includes the harvesting of crops such as dry beans, soybeans,

dry peas, and peanuts. Hauling of these crops to market is sometimes a part of harvesting service operations, but those establishments engaged primarily in hauling are included in the census of transportation and are classified in SIC major group 42.

07226 Hay (mowing, raking, baling, or chopping)—This activity includes hay services other than drying (see code 07231). Establishments primarily engaged in this service frequently perform other types of agricultural services as well and are sometimes engaged in hay farming, hay hauling, or buying and selling hay. Those primarily engaged in hay farming are included in the census of agriculture; in marketing hay, by the census of business.

07229 Other harvesting services—This activity includes mechanical harvesting of surgarcane and sugar beets. It also includes chopping and silo filling services and all other mechanical harvesting services not elsewhere classified.

Preparation for Market

07230 Corn shelling or drying—This activity includes the separation of corn seed from the cob or ear and the artificial drying of corn (removal of excess moisture) in preparation for market or further manufacture.

07231 Crop drying other than corn—This service includes the drying or dehydrating of crops other than corn. Establishments primarily engaged in crop processing for their own account and manufacturing crop products such as from grain or tobacco are included in the census of manufacturers and are classified in SIC major groups 20 and 21.

07232 Grain grinding and mixing—This service includes custom feed grinding and mixing. It is sometimes provided by mobile feed grinding and mixing units. Frequently, it is performed by establishments primarily engaged in selling feed and grain or in manufacturing prepared feed. Such establishments are included in the census of business and are classified in SIC major group 51 or by the census of manufacturers and are classified in SIC major group 20.

07233 Bean or grain cleaning—This service includes the cleaning of crops such as beans and grains. Establishments primarily engaged in warehousing are included in the census of warehousing and are classified in SIC major group 42.

07234 Cotton seed delinting—This specialized activity involves the separation of cotton seed from linters, a fibrous coat of thick convoluted hairs sometimes used for mattress stuffing or fertilizer. Operations involved in cotton delinting are frequently primarily involved in the sale of cotton byproducts. Such establishments are usually included in the census of business.

07235 Packaging fresh or farm-dried fruits or vegetables—This activity includes packaging services such as bagging, bunching, and wrapping of fruits or vegetables such as oranges, apples, grapefruits, corn, peas, and carrots for retail or wholesale market. Establishments primarily engaged in these services frequently perform other types of agricultural services as well, and also are sometimes engaged in fresh market or wholesale operations.

07236 Sorting, grading, or packing of fruits or berries—This activity includes packing services such as sorting, grading, and boxing of fruits or berries into bulk units which are preparatory to packaging for retail or wholesale market. Establishments primarily engaged in wholesale or pretransportation operations, or exclusively in shipping or warehousing, are included in either the census of business and are classified in SIC major group 51, or the census of transportation and are classified in SIC major group 42 or 47.

07237 Sorting, grading, or packing of vegetables—This activity includes the same operations as 07236, but for vegetables rather than fruits or berries.

07239 Other market preparation services—This activity includes flax decorticating and retting, fruit precooling, moss ginning, potato curing, tobacco grading, tree nut hulling and shelling, and vegetable precooling. It also includes all other market preparation services not elsewhere classified.

Cotton Ginning

07240 Cotton ginning—This activity includes cotton ginning which involves the mechanical separation of cotton fibers from seeds and waste material. Operations performing cotton ginning frequently also sell, at the same location, cotton seed, cotton oil, and other cotton byproducts. Establishments primarily engaged in such sales activities are usually covered by the census of business and are classified in SIC major group 51.

07241 Cotton pickery—This activity includes salvaging cotton lint from bales damaged by fire or rain and samples and loose cotton pulled from bales. It is a low grade cotton used in making mattresses, blankets, upholstery, pillows, etc.

07249 Other cotton ginning services—This activity includes cotton ginning activities not elsewhere classified.

074 VETERINARY SERVICES

Cattle, Hogs, Sheep, Goats, and Poultry

07410 Professional services—This activity involves establishments of licensed practitioners primarily engaged in the practice of veterinary medicine, dentistry, or surgery. It may be performed in an office or at the physical location of the animals.

07411 Hospital care—This activity is closely related to 07410. It is required when a particular animal disease needs special treatment and constant observation or when surgery is performed.

07412 Artificial insemination—This service involves most types of domestic animals and is generally performed on a fee basis.

07419 Other veterinary services—This activity includes castrating, dehorning, inoculating, and vaccinating livestock, or other veterinary services not elsewhere classified.

Dogs, Cats, Horses, Bees, Fish, Rabbits, Other Fur-Bearing Animals, Birds (Except Poultry), and Other Pets

07420 Professional services—This activity involves establishments of licensed practitioners primarily engaged in the practice of veterinary medicine, dentistry, or surgery.

07421 Hospital care—This activity is closely related to 07420. It is required when a particular animal disease needs special treatment and constant observation or when surgery is performed.

07422 Artificial insemination—This service involves most types of domestic animals and is generally performed on a fee basis.

07429 Other veterinary services—This activity includes castrating, inoculating, and vaccinating small animals, or other veterinary services not elsewhere classified.

075 ANIMAL SERVICES, EXCEPT VETERINARY

Cattle, Hogs, Sheep, Goats, and Poultry

07510 Artificial insemination and breeding, except by veterinarians—This activity involves most types of domestic animals and is generally performed on a fee basis, the fee excluding the cost of semen. It is provided by farmers and cooperatives as well as by private concerns. If performed by a farmer as a small sideline to his farm operation, it is covered by the census of agriculture. However, if performed as a separate establishment in addition to farming, it is covered as an agricultural service in this census. Profit-oriented cooperatives whose primary activities are animal breeding and artificial insemination are included in this census, but membership organizations performing these services are classified in SIC major group 86.

07511 Dairy herd improvement associations (milk testing for butterfat)—This activity generally involves the testing of cow's milk for butterfat content and the recording of test results. It is usually performed by farm cooperatives or individuals commissioned or contracted by such cooperatives.

07512 Pedigree record services—This activity involves establishments primarily engaged in keeping records of an animal's ancestry.

07513 Slaughtering for individuals—This activity involves establishments primarily engaged in the slaughtering of cattle, hogs, sheep, lambs, and calves on a fee basis. Establishments engaged in slaughtering for their own account or on a contract basis are classified in SIC major group 20.

07514 Sheep dipping and shearing—Sheep dipping involves cleaning of sheep by immersion in a disinfectant solution. Shearing is the removal of wool from the sheep.

07515 Livestock vaccinating, except by veterinarians—This service involves vaccination of livestock to prevent the outbreak of costly diseases.

07516 Poultry services—poultry catching or cleaning coops—This includes such activities as cleaning poultry coops and catching chickens, turkeys, or other poultry. Establishments primarily engaged in raising poultry or producing eggs for sale or hatching are classified in SIC major group 02.

07519 Other animal services—This activity involves establishments engaged in performing such services as dehorning, castrating, spraying, and sexing chicks.

Dogs, Cats, Horses, Bees, Fish, Rabbits, Other Fur-Bearing Animals, Birds (Except Poultry), and Other Pets

07520 Artificial insemination and breeding, except by veterinarians—This activity is the same as that performed by code 07510.

07521 Boarding, showing, or training of horses, including race horses—This service may include the feeding, cleaning, clipping, shearing, and training of horses including race horses. Establishments primarily engaged in racing horses or in the operation of racetracks or racing stables are classified in SIC major group 79.

07522 Boarding, showing, training, or grooming of dogs and cats—This service includes the boarding of animals other than horses and the bathing, cleaning, clipping, grooming, and shearing of dogs and cats. Commercial kennels primarily engaged in raising dogs and cats for sale are classified in SIC major group 02. Establishments primarily engaged in retail pet sales are covered by the census of business and are classified in SIC major group 59. Animal training usually involves training on a fee basis, and the trainers also frequently handle and show pets at shows. Also many such trainers operate their own kennels.

07523 Pedigree record services—This service is performed by establishments primarily engaged in keeping records of an animal's ancestry.

07529 Other small-animal services—This service includes cleaning animal quarters, spraying stables, inoculating, vaccinating, and castrating small animals, other animal specialty services, and honey straining on the farm.

076 FARM LABOR AND MANAGEMENT SERVICES

Farm Labor Contractors and Crew Leaders

07610 Farm labor contractors—This service is performed by establishments engaged in supplying labor for agricultural production or harvesting. Establishments who perform such services sometimes transport the workers as part of their contract and may also provide other minor trucking services for the farmer. However, supplying labor is usually their primary activity.

07611 Crew leaders—This service involves the supervision of migratory farm labor.

Farm Management Services

07620 Citrus grove—This service is performed by establishments primarily engaged in complete management and maintenance of commercial citrus groves. The service includes cultivation, harvesting, spraying, and other specialized services.

07621 Orchard or vineyard—This service is the same as that provided by 07620.

07629 Other farm management services—This service is provided most often to absentee farm owners, farm estates, or farm trusts, and generally involves the complete operation of a farm or ranch. It is occasionally provided in connection with other services such as accounting, tax preparation, and marketing. If such other service is the primary activity of an establishment, the establishment is classified in SIC major group 73 or 89.

078 LANDSCAPE AND HORTICULTURAL SERVICES

Landscape Counseling and Planning

07810 Landscape architects—This includes professional services such as landscape architecture. It does not include exclusively physical work on lawns, gardens, trees, shrubs, etc. That work is covered by activities 07820, 07821, 07830, and 07831. Landscape architects primarily engaged in city planning are classified in SIC major group 73.

07811 Landscape counseling or planning—This activity includes professional services such as garden and landscape planning and horticultural advice or counseling. It does not include exclusively physical work on lawns, gardens, trees, shrubs, etc. That work is covered by activities 07820, 07821, 07830, and 07831.

Lawn and Garden Services

07820 Lawn or garden services including planting, mowing, spraying, fertilizing, etc.—This activity includes general lawn and garden maintenance; bermuda sprigging service; and planting, mowing, spraying, and fertilizing lawns and gardens. Landscape contractors primarily engaged in foundation work and excavating activities are covered by the census of construction and are classified in SIC major group 17. The growing of plants is frequently combined with a lawn and garden service operation. Operations growing plants primarily for sale, such as nurseries and greenhouses, are included in the census of agriculture and are classified in SIC major group 01. Those primarily buying and selling plants, such as garden centers, are covered by the census of business.

07821 Cemetery upkeep or mowing highway center strips and edges, independent—This activity includes general lawn service for maintenance of cemeteries and golf courses, and mowing of highway center strips and edges. It also includes horticultural or landscaping services not elsewhere classified. Cemetery associations and cemetery management services are classified in SIC major group 65.

Ornamental Shrub and Tree Services

07830 Shrub and tree services, including planting, fertilizing, spraying, trimming, and surgery, except for public utility lines—This activity includes arborist services and the planting, spraying, pruning, bracing, trimming, and surgery of shrubs and trees. It is often combined with nursery operations. If the operation is primarily engaged in growing shrubs and trees for sale, it is included in the census of agriculture in SIC major group 01. If it is primarily engaged in buying and selling trees and shrubs, it is included in the census of business.

07831 Tree trimming for public utility lines, independent—This service involves keeping public utility lines clear by trimming the trees near them. The service is performed by independent operators.

Reporting Unit

In the tables, a "reporting unit" is defined as an establishment entering a response to a particular item of the report form. Each establishment is tabulated under only one "establishment type," but may be counted more than once as a "reporting unit" for specific criteria.

Type of Organization

The four types of organizations (section 3 of report form) are individual proprietorship, partnership, corporation, and other. *Individual proprietorship* is defined as a business organization owned or controlled by an individual. This includes family operations that are not incorporated or operated under a partnership agreement. *Partnership* is an establishment that is operated by two or more persons who have agreed on the amount of their contribution (capital and effort) and the distribution of profits. Co-ownership of an establishment by husband and wife does not necessarily mean that a partnership exists unless there is some agreement as to the sharing of contributions, decisionmaking, profits, and liabilities. *Corporation* is defined as a legal entity or artificial person created under the laws of a State to carry on a business. *Other* organizations include nonincorporated profit-oriented co-operatives, trade associations, trusts, estates, government-oriented service establishments, or other types of businesses not specified.

Dollar Volume of Business

This section (section 5 of report form) includes only receipts from customers, excise taxes and sales tax, total charges for services or for the use of facilities, and merchandise sold whether or not payment was received in 1978. It does not include commissions from vending machine operations, real estate rental, interest, sale of real estate, and other nonoperating income.

Payroll

The total payroll (section 6 of report form) includes gross earnings paid in the calendar year to employees prior to such

deductions as employee's Social Security contributions, withholding taxes, group insurance premiums, union dues, and savings bonds. It includes all wages, salaries, commissions, dismissal pay, paid bonuses, vacation and sick pay, and the cash equivalent of compensation paid-in-kind. For a corporation, it includes salaries of officers; for an unincorporated concern, it excludes payments to proprietors or partners.

Supplemental Labor Costs

Supplemental labor costs (section 7 of report form) includes both legal and voluntary labor expenditures not included in the 1978 payrolls. Legally required labor expenditures include employers' payments for all programs required under Federal and State legislation, such as Federal Old Age Survivors' Insurance, unemployment compensation, workmen's compensation, and State temporary disability compensation. Voluntary labor expenditures include costs of programs not specifically required by Federal or State legislation such as employers' payments for insurance premiums on hospital and medical plans, life insurance premiums, and premiums on supplementary accident and sickness insurance. Payments for insurance programs are net payments (gross payments less any offsetting dividends, refunds, or other reductions in premiums). Voluntary labor expenditures also include payments or allocations for all compensation plans, welfare plans, stock purchase plans in which the employer's payment is not subject to withholding tax, and deferred profit sharing plans.

Gross Receipts for Agricultural Services Performed

The data on gross receipts (section 8 of report form) cover total receipts from customers for agricultural services performed during 1978 including excise and sales taxes whether or not payment was received in 1978. They do not include amounts collected on outstanding debts from previous years. Also the data do not include receipts from product sales or any activities other than agricultural services, nonoperating income such as commissions from vending machine operations, real estate rental and sale, and interest.

During the processing of the reports, problems arose regarding the gross receipts reported in section 8. In some cases, respondents were unable to provide the breakdown of gross receipts for agricultural services and the cost of materials provided in connection with the services performed. In other cases, the same data were provided in section 8 as in section 11. When the figures were large, telephone calls were made to resolve the problems; when the figures were small, the duplication was deleted from section 11.

In the case of a single gross receipt total entered for a combination of two or more agricultural services, estimating techniques were generally used to break the figure down into its components. If gross receipts were reported for a miscellaneous agricultural service activity specified by the respondent, that activity was carefully reviewed to determine its proper scope and classification.

Location of Agricultural Services Performed

County data presented were primarily based on responses to the item "principal county" (section 9 of report form). For this census, "principal county" is defined as the county from which all or a major part of the gross receipts for agricultural services was received. In other words, it is the location in which the agricultural service contributing the greatest portion of the total gross receipts for all agricultural services was performed by an establishment. This distinction was considered appropriate because of the occasional difference between the actual location of the activities and the mailing address or headquarters of the establishment. When the principal county was not reported, the county and State of the mailing address were used, unless the address appeared unlikely to be the principal location, in which case, telephone calls were made to determine the correct location. Data for the independent cities in Virginia and the independent cities of Baltimore, Md., and St. Louis, Mo., are included in the statistics for selected adjacent counties. The District of Columbia is treated as a separate area.

Labor and Payroll for Agricultural Services Performed

Active agricultural service establishments were expected to report data for either unpaid workers or paid employees, or both (section 10 of report form). Sole proprietors and partners of establishments were instructed to report themselves as unpaid. Likewise, most corporations were expected to report data for paid employees. In a few cases, individuals were major stockholders of small corporations and were involved in corporate operations but were not on the payroll. Such individuals were instructed to report themselves as unpaid employees.

Labor and payroll statistics cover management, office workers, and other employees associated with agricultural service operations. All reports with paid employees were required to supply annual payroll figures and vice versa. For relatively small operations, appropriate estimates were provided for missing data of this type; for the larger cases respondents were requested to supply additional information when necessary. Annual payroll figures include only cash payments to employees before deductions for Social Security, taxes, insurance dues, etc.

The four pay periods listed for the "seasonal variation" item were specifically chosen to represent agricultural service labor during the four seasons, and to conform to the labor reporting criteria used by other census reports. Several respondents neglected or were unable to provide a breakdown of their seasonal labor uses. Since reliable parameters were not available for imputing this type of missing data, reports with no seasonal variation entries were excluded from the statistical totals.

Gross Receipts From Products Provided

The products provided in connection with the agricultural services performed (section 11 of report form) include fertilizer, lime, insecticides, pesticides, or herbicides, bagging and ties, drugs, semen, seeds, and ornamental shrubs or trees planted.

Gross Receipts From Other Operations Performed

Data on nonagricultural service activities were collected (section 12 of report form) because the census definition of an agricultural service establishment was based on the relationship between gross receipts for agricultural services and those for nonagricultural services. Included in this section are other business activities such as nonagricultural operations, and sales of merchandise not used in connection with agricultural service activities. Various types of product sales, such as seed, plant, and fertilizer sales, were the most frequent nonagricultural service activities reported. All entries were reviewed to determine their proper scope. Excluded from gross receipts was income from such sources as investments, rental of real estate, personal salary, wages, or commission from outside employment.

Capital Expenditures

Completion of this section (section 13 of report form) was requested only by corporations and those establishments reporting over $50,000 volume of business in section 5 since it was discovered during the last census that the larger establishments were more able to provide this information with a minimum of difficulty. Capital expenditures refer to all costs chargeable to the property accounts for which depreciation or amortization accounts are ordinarily maintained. They include major alterations for capitalized repairs and improvements.

Three types of information were requested on the capital expenditures of the establishment: (1) the cost of all improvement and new structures which were in progress but had not been completed at the end of 1978, and expenditures made by the company or any of its subsidiaries for structures which upon completion were or are to be sold and leased back to the establishment; (2) expenditures for new machinery and equipment such as forklifts, conveyors, tractors, mechanical planters, harvesters, sprayers, dusters, fruit packing equipment, and automobiles, if used primarily in performing services; and (3) used plant and equipment acquired from other establishments of the company. Capital expenditures exclude the cost of land and mineral rights, and the cost of maintenance and repairs charged as current operating expenses.

Changes in Gross Value of Depreciable Assets

Completion of this section (section 14 of report form) was also required only by corporations and those establishments reporting over $50,000 volume of business in section 5. The changes in gross value of depreciable assets of the establishment are those for which depreciation or amortization accounts are ordinarily maintained. Gross value represents the acquisition cost to the company of such depreciable assets at the beginning of 1978. It includes depreciable assets, amortizable fixed assets and all improvements and new construction in progress during 1978 but not completed at the end of 1978. It also includes the value of depreciable assets owned by the company or any of its subsidiaries but leased to the establishment. Excluded was the value of depreciable assets at other establishment locations of the company for which the reporting establishment maintains records.

Expenditures for Electricity, Gasoline, Petroleum, and Other Fuels Purchased

Completion of this section (section 15 of report form) was also required only by corporations and those establishments reporting over $50,000 volume of business in section 5. Respondents were requested to report expenditures for fuels and electricity during 1978 for their establishment.

DATA WITHHELD FROM PUBLICATION

In keeping with the provisions of title 13, United States Code, data that discloses information about an individual establishment are not published. The number of establishments and their distribution by county, State, or the United States is not considered a disclosure. These data appear in places where related data, such as gross receipts, employment, and payroll are withheld.

Figures for data withheld are included in the next larger figure provided that the data withheld cannot be derived from the published total. For example, if county data are withheld, it will appear in the State or United States total. If the data withheld can be derived from the published totals, a sufficient number of additional components are suppressed to ensure confidentiality of the individual record. These suppressions are generally performed on data corresponding to the fewest number of establishments or reporting units. The suppressions are identified by (D).

DATA INCLUDED IN THE 1978 CENSUS OF AGRICULTURE

Data published in this volume for establishments primarily engaged in agricultural services are supplemented by data collected in the 1978 Census of Agriculture for establishments primarily engaged in agricultural production. Data from the census of agriculture showing the number of farms reporting and the dollar value for all agricultural services provided are shown in volume 1 for each State and county.

Reports identified in the census of agriculture as having a significant volume of receipts and primarily engaged in agricultural services were transferred to the census of agricultural services. Such reports were checked for duplication prior to adding to the census of agricultural services. Service activities included in the census of agriculture tend to be concentrated in soil preparation (071) and crop services (072).

If this establishment is a corporation or more than $50,000 was reported in section 5, answer sections 13, 14, and 15. If not, SKIP to section 16.

Section 13 – CAPITAL EXPENDITURES FOR THIS ESTABLISHMENT DURING 1978 (EXCLUDING LAND AND MINERAL RIGHTS)

- Report all capital expenditures actually made during 1978 for this establishment, including major alterations, capitalized repairs, and improvements. "Capital expenditures" refer to all costs that are chargeable to property accounts for which **depreciation or amortization accounts** are ordinarily maintained.
- **Include** the cost of all improvements and new construction at this establishment which were in progress but had not been completed at the end of 1978. (For example, cost for animal hospitals, packing sheds, cotton gins, warehouses, etc., and improvements to establishment sites such as fences, storage facilities, etc.) **Include** expenditures made by your company (or any of its subsidiaries) for structures which, upon completion, were or are to be sold and leased back to this establishment.
- **Include** expenditures for new machinery and equipment such as forklifts, conveyors, tractors, mechanical planters, harvesters, sprayers, dusters (including airplane dusters), fruit packing equipment, automobiles, etc., primarily used in performing services.
- **Include** transfers of used plant and equipment to your establishment from other establishments of your company.
- **Exclude** the cost of land and mineral rights. **Exclude** the cost of maintenance and repairs charged as current operating expense. **Exclude** capital expenditures made by outside owners of property rented or leased to this establishment. **Exclude** capital expenditures made by this establishment for other locations of your company.

Type of capital expenditures:	Dollars	Cents
a. New structures and additions to your service establishments	911 $	
b. New machinery and new equipment	912	
c. Used plant and used equipment acquired from others (including transfers from other establishments of your company)	913	
d. **TOTAL** CAPITAL EXPENDITURES DURING 1978 **(Sum of lines a, b, and c)** →	914 $	

Section 14 – CHANGES IN GROSS VALUE OF DEPRECIABLE ASSETS OF THIS ESTABLISHMENT DURING 1978

- Report the changes in gross value of depreciable assets **of this establishment** for which **depreciation or amortization accounts** are ordinarily maintained. "Gross value" represents the acquisition cost (original cost or other basis) to your company of such depreciable assets. **Include** all depreciable assets (buildings, structures, machinery, equipment, etc.), and all amortizable fixed assets. **Include** all improvements and new construction "in progress" during 1978 but not yet completed at the end of 1978. Also **include** the value of depreciable assets owned by this establishment but leased or rented to other companies. **Include** the value of depreciable assets owned by your company or any of its subsidiaries but "leased" to this establishment.
- **Exclude** the value of depreciable assets at other locations of your company (or any of its subsidiaries) for which this establishment maintains records.

	Dollars	Cents
a. Gross value of depreciable assets at BEGINNING of 1978	915 $	
b. Total capital expenditures during 1978 (Copy figure from section 13, item d)	916	
c. Gross value of depreciable assets sold, retired, transferred, scrapped, or destroyed during 1978	917	
d. **Gross value** of depreciable assets at END of 1978 **(Should equal lines a-b-c.** If not, please explain in "Remarks.") →	918 $	

Section 15 – EXPENDITURES FOR ELECTRICITY, GASOLINE, PETROLEUM, AND OTHER FUELS PURCHASED DURING 1978

	Estimated expenditures for 1978 – Dollars	Cents
a. Gasoline	919 $	
b. Diesel fuel	920 $	
c. LP gas, butane, propane	921 $	
d. Motor oil, grease, piped gas, kerosene, and fuel oil	922 $	

	Kilowatt hours	Dollars	Cents
e. Electricity purchased	923	924 $	

Section 16 – CHECKS to assure a complete and accurate report

The Bureau of the Census reviews your report for omissions, inconsistencies, and unusual ratios. To reduce the possibility of correspondence about some problem, please make the following checks before returning your report.

(1) Review the report carefully to see that no items are omitted for the year being covered.
(2) Correct your report for any errors you find and explain unusual figures in "Remarks."

Consistency checks	Calculation required for each check	Answer
Section 5	If section 5 is completed, have sections 8 and 11 been completed?	☐ YES ☐ NO – *Please complete*
Total for section 5	Does the sum of the totals in sections 8, 11, and 12 equal the total for section 5?	☐ YES ☐ NO – *Please refigure*
Payroll	Does the entry for section 6a equal the sum of section 10 "a" through "f"?	☐ YES ☐ NO – *Please explain in "Remarks" section*
Total for section 8	Do all dollar entries in section 8 add to total entered in section 8g?	☐ YES ☐ NO – *Please refigure*

Remarks – Attach a separate sheet if necessary.

INFORMATION SHEET FOR FORM 78-A40D

1978 CENSUS OF SOIL PREPARATION AND CROP SERVICES, VETERINARY AND ANIMAL SERVICES, FARM LABOR AND MANAGEMENT SERVICES, LANDSCAPE AND HORTICULTURAL SERVICES

AGRICULTURAL SERVICES

GENERAL INSTRUCTIONS

For purposes of this census, an agricultural services establishment is defined as one primarily engaged in: (1) Soil Preparation Services, (2) Crop Services, (3) Veterinary Services, (4) Animal Services, (5) Farm Labor and Management Services, and (6) Landscape and Horticultural Services — on a fee or contract basis. Lawn and Garden centers operated on a retail or wholesale basis are excluded.

This report should cover the calendar year 1978. If your records are not on a calendar year basis, carefully prepared estimates for 12 months to include as much of the calendar year 1978 as possible will be acceptable.

INSTRUCTIONS FOR SPECIFIC ITEMS

▶ **Section 1 — BUSINESS OR ACTIVITY** — Please mark the appropriate box that best describes the type of business or activity you performed during 1978. Also, please give a brief word description of your business activity during 1978. For example, an establishment that did surgical work on trees would be described as "tree surgeon."

▶ **Section 2 — EMPLOYER IDENTIFICATION NUMBER** — Be certain to enter in section 2 the current Employer Identification Number if it is different from the one printed in the address label. This information is needed so that the Bureau of the Census will not send duplicate report forms to the same location.

▶ **Section 3 — TYPE OF ORGANIZATION** — Mark the appropriate box to show the type of business organization which best describes your operation. An "Individual" is defined as a business organization owned or controlled by an individual. This includes family operations that are not incorporated under a partnership agreement. A "Partnership" is an establishment that is operated by two or more persons who have agreed on the amount of their contribution (capital and effort) and the distribution of profits. Co-ownership of an establishment by husband and wife or joint filing of income tax forms by husband and wife does not necessarily mean that a partnership exists unless there is some agreement as to the sharing of contributions, decisionmaking, profits, and liabilities. A "Corporation" is defined as a legal entity or artificial person created under the laws of a State to carry on a business. "Other" organizations include co-operatives (incorporated or unincorporated enterprise or association created and formed jointly by members), sub-chapter "S" organizations (a legal entity treated as a corporation for credit purposes, but treated as a partnership or individual for tax and profit sharing purposes), or other types of business not specified.

▶ **Section 4 — PERIOD OPERATED DURING 1978** — Mark the "Yes" box in section 4 if this establishment was in business at the end of 1978. If the establishment was inactive during December 1978 due to seasonal or part-time operations, the "Yes" box should be marked. Mark the "No" box if the establishment is no longer in business or the business has been sold. Also indicate the number of months the establishment was operated under your ownership in 1978, whether or not it is still owned by you, in this section.

▶ **Section 5 — DOLLAR VOLUME OF BUSINESS** — Report your total gross receipts in this section. Include only receipts from customers, excise taxes, sales taxes, and merchandise sold, whether or not payment was received in 1978. The dollar amount entered in this section should be equal to the sum of section 8, plus section 11, plus section 12.

▶ **Sections 6 and 10 — PAYROLL AND EMPLOYEES** — When reporting the payroll figure in section 6, be sure that section 10 is completed for both employees and payroll. The payroll figure should be the gross earnings paid in calendar year 1978 to employees of the establishment prior to such deductions as employee's Social Security contributions, withholding taxes, group insurance premiums, union dues, and savings bonds.

Include in gross earnings, all wages, salaries, commissions, dismissal pay, paid bonuses, vacation and sick-leave pay.

Include salaries of officers of the establishment, if a corporation; if an unincorporated concern, exclude payments to proprietor or partners. Exclude payments to members of armed forces and pensioners carried on your active payroll. Exclude royalty payments to unions.

▶ **Sections 6 and 10 — PAYROLL AND EMPLOYEES — Continued**

Report the number of employees at the establishment who worked or received pay for any part of the pay period including the 12th of the specified months in section 10. Include all persons on paid sick leave, paid holidays, and paid vacation during these pay periods; exclude members of armed forces and pensioners carried on your active rolls. If a corporation, include officers of the establishment; if an unincorporated concern, exclude the proprietor and partners.

▶ **Section 7 — SUPPLEMENTAL LABOR COST NOT INCLUDED IN PAYROLL DURING 1978**

- **Legally Required Labor Expenditures During 1978** — Report payments for all programs required under Federal and State legislation such as Federal Old Age Survivors Insurance, unemployment compensation, workmen's compensation, and State temporary disability payments. **Include employer payments only.**
- **Voluntary Labor Expenditures During 1978** — Report the cost of all programs not specifically required under Federal or State legislation.

For programs financed jointly by employer and employee, **include only employer payments.** Include employer payments for: insurance premiums on hospital and medical plans; life insurance premiums; and premiums on supplementary accident and sickness insurance. In reporting payments for insurance, report net payments; i.e., gross payments less any offsetting dividends, refunds, or other reductions in premiums.

Also include payments or allocations for pension plans regardless of method of administration, supplemental unemployment compensation plans, welfare plans, stock purchase plans in which the employer payment is not subject to withholding tax, and deferred profit sharing plans.

▶ **Section 8 — GROSS RECEIPTS FOR SERVICES PERFORMED**

- **Soil Preparation and Crop Services** — When reporting in this section, please do not duplicate the figure for section 11. The figure(s) reported in any line of section 8 should be the total service fee charged during the year 1978.

Packing houses (establishments that sort, grade, and pack fruits, vegetables, or berries) should exclude receipts from the sale of vegetables, fruits, and berries. This figure should be reported in section 12.

The cost of materials or products provided in connection with the services performed should be reported in section 11. For example, if an establishment charged $6,000 for the cost of materials provided in connection with the service performed, this figure should be reported on the appropriate line(s) of section 11. If an establishment normally charged a $2 per acre service fee for the services performed on 1,000 acres, the total service fee would be $2,000 ($2 per acre X 1,000 acres). The $2,000 service fee should be reported on the appropriate line(s) of section 8.

If separate records are not kept for service fees charged and for the cost of materials applied, carefully prepared estimates are acceptable.

- **Veterinary and Animal Services** — Report only the service fees in this section. If a breakdown between the different types of service is not available (for example, between hospital care and professional services), estimate the percentage breakdown and multiply the percentage by the total receipts. If an animal hospital earned $100,000 and 60 percent of this amount was from professional services and 40 percent was from hospital care, the amount for professional services would be $60,000 ($100,000 x 60 percent) and the amount for hospital care would be $40,000 ($100,000 x 40 percent). Do not report any receipts from drugs or semen, this figure should be reported in section 11.
- **Farm Labor and Management Services** — Report your total receipts before any payments to employees. The payroll should be reported in sections 6 and 10. For example, if your total receipts were $100,000 (figure to be reported in this section) and your payroll was 70 percent of the total receipts, the payroll figure to be reported in sections 6 and 10 would be $70,000 ($100,000 X 70 percent).
- **Landscape and Horticulture Services** — When reporting in this section, do not duplicate the figure for section 11. The figure reported in any line of this section should be the total fee earned during the year. The receipts from products (custom application) should be reported in section 11. For example, if an establishment earned $10,000 in total receipts and normally charged a 30 percent service fee, $3,000 would be reported in section 8 ($10,000 X 30 percent). Seven thousand dollars ($7,000) would be reported in section 11 if no income was earned from other operations. If income was derived from other operations, report it in section 12; otherwise, do not report anything in section 12.

▶**Section 9 – LOCATION OF SERVICES PERFORMED DURING 1978** – In this section, indicate all counties and States in which your establishment performed the activities reported in section 8 and give the gross receipts for each individual county. If you do not know the dollar breakdown by county, estimate the percentage breakdown and enter it in column d.

The sum of the dollar figures (column c) should be equal to the sum of the dollars in section 8g.

▶**Section 11 – GROSS RECEIPTS FROM PRODUCTS PROVIDED IN CONNECTION WITH SERVICES PERFORMED DURING 1978**

- **Soil Preparation and Crop Services** – Report receipts from fertilizer or lime spreading; insecticides, pesticides, or herbicides applied; or bagging and ties for cotton ginned. If separate records are not maintained for service fee and materials, estimate the percentage of the total receipts applicable to materials. For example, if 80 percent of your total service fee went for materials and you earned $10,000, then the figure reported in this section would be $8,000 ($10,000 X 80 percent).

- **Veterinary and Animal Services** – Report receipts from semen and drugs prescribed. If separate records are not maintained, estimate the percentage of the total receipts applicable to the materials (see instructions for section 8 for further detail).

- **Landscape and Horticulture Services** – Report receipts from custom application of fertilizer, insecticides, etc. Also, report receipts from custom planting of seed, ornamental shrubs, or trees. If separate records are not maintained for service fee and materials, estimate the percentage of the total receipts applicable to the materials (see instructions for section 8 for further detail). Exclude any receipts from retail or wholesale garden centers, they should be reported in section 12.

▶**Section 12 – OTHER OPERATIONS PERFORMED DURING 1978** – List all operations other than those reported in section 8, performed during 1978 by this establishment. Include any receipts from farming, non-agricultural operations, sales of merchandise, etc. Do not report rental or income from real estate sales.

▶**Section 13 – CAPITAL EXPENDITURES FOR THIS ESTABLISHMENT DURING 1978 (EXCEPT LAND AND MINERAL RIGHTS)** – This section is to be completed only by corporations and those establishments reporting over $50,000 in section 5. Report all capital expenditures actually made during 1978 for the establishment, including major alterations, capitalized repairs, and improvements. "Capital Expenditures" refer to all costs that are chargeable to property accounts for which depreciation or amortization accounts are ordinarily maintained. Figures for this section may be computed as follows: (a) new structures and additions to your service establishment, plus (b) new machinery and new equipment, plus (c) used plant and used equipment acquired from others (including transfers from other establishments of your company). For example, during 1978, an establishment has accumulated costs of $5,000 for new structures and additions, and $3,000 for new machinery and equipment. Also, the value of used plant and used equipment acquired or transferred from other establishments within the company amounted to $2,000 for 1978. The resulting $10,000 figure for total capital expenditures during 1978 would be based on the following computation: (a) $5,000 plus (b) $3,000 plus (c) $2,000 equals $10,000.

▶**Section 14 – CHANGES IN GROSS VALUE OF DEPRECIABLE ASSETS OF THIS ESTABLISHMENT DURING 1978** – This section is to be completed only by corporations and those establishments reporting over $50,000 in section 5. Report all changes in gross value of depreciable assets of this establishment for which depreciation or amortization accounts are ordinarily maintained. Figures for this section may be computed as follows: (a) gross value of depreciable assets at beginning of 1978, plus (b) total capital expenditures during 1978 (copy figure from section 13, line d), minus (c) gross value of depreciable assets sold, retired, transferred, scrapped, or destroyed during 1978. For example, an establishment has $10,000 gross value of depreciable assets beginning the year 1978 and has total capital expenditures of $3,000 with the gross value of depreciable assets sold, retired, scrapped, or destroyed during 1978 being $6,000. The amount figure would be $7,000, based on the following computation: (a) $10,000 plus (b) $3,000 minus (c) $6,000 equals $7,000.

▶**Section 15 – EXPENDITURES FOR ELECTRICITY, GASOLINE, PETROLEUM, AND OTHER FUELS PURCHASED DURING 1978** – This section is to be completed only by corporations and those establishments reporting over $50,000 in section 5. Report the amount paid or payable during 1978 for the various types of fuel on their appropriate line. If a breakdown for the various fuels is not available, your best estimate based on a percentage figure will be acceptable.

Major Group 07.—AGRICULTURAL SERVICES

The Major Group as a Whole

This major group includes establishments primarily engaged in performing soil preparation services, crop services, veterinary services, other animal services, farm labor and management services, and landscape and horticultural services, for others on a fee or contract basis. However, feedlots and poultry hatcheries operated on a fee or contract basis are included in Major Group 02.

Group No. Industry No.

071 SOIL PREPARATION SERVICES

0711 Soil Preparation Services

Establishments primarily engaged in land breaking, plowing, application of fertilizer, seed bed preparation, and other operations for improving the soil.

Chemical treatment of soil
Fertilizer application
Lime spreading
Plowing
Seed bed preparation
Weed control, before planting

072 CROP SERVICES

0721 Crop Planting, Cultivating, and Protection

Establishments primarily engaged in performing a variety of crop planting, cultivating, and protection operations. Establishments primarily engaged in complete citrus grove maintenance are classified in Industry 0762, and those providing a combination of services from soil preparation through harvest are classified in Industry 0729.

Aerial dusting and spraying
Bracing of orchard trees and vines
Citrus grove cultivation
Cultivation, mechanical and flame
Cultivation of sprouts, twigs, etc.
Detasseling of corn
Disease control for crops, with/without fertilizing
Dusting crops, with/without fertilizing
Entomological service
Hoeing
Insect control for crops, with/without fertilizing
Planting, with/without fertilizing
Pollinating
Pruning of orchard trees and vines
Seeding crops, with/without fertilizing
Seeding of sprouts, twigs, etc.
Spraying crops, with/without fertilizing
Surgery on orchard trees and vines
Thinning of crops, mechanical and chemical
Weed control, after planting

0722 Crop Harvesting, Primarily by Machine

Establishments primarily engaged in mechanical harvesting, picking, and combining of crops, and related activities, using machinery provided by the service firm. Farm labor contractors providing personnel for manual harvesting are classified in Industry 0761.

Berries, machine harvesting of
Chopping and silo filling
Combining
Cotton, machine harvesting of
Fruits and vegetables, machine harvesting of
Grain, machine harvesting of
Hay mowing, raking, baling, and chopping
Peanuts, machine harvesting of
Sugarcane, machine harvesting of
Threshing service
Tree nuts, machine harvesting of

0723 Crop Preparation Services for Market, Except Cotton Ginning

Establishments primarily engaged in performing a variety of operations on crops subsequent to their harvest, with the intent of preparing them for market or further manufacture. Establishments primarily engaged in stemming and redrying of tobacco are classified in Industry 2141.

Group No. Industry No.

072 CROP SERVICES—Continued

0723 Crop Preparation Services for Market, Except Cotton Ginning—Continued

Alfalfa cubing
Bean cleaning
Corn shelling
Cotton seed delinting
Drying of corn, rice, hay, fruits, and vegetables
Flax decorticating and retting
Fruit precooling, not in connection with transportation
Grain cleaning
Grain grinding, custom
Grist mills, custom
Hay baling
Hay cubing
Milling of flour, feed, and grain: custom
Moss ginning
Packaging fresh or farm-dried fruits and vegetables
Potato curing
Sorting, grading, and packing of fruits and vegetables
Sweet potato curing
Tobacco grading
Tree nut hulling and shelling
Vegetable precooling, not in connection with transportation

0724 Cotton Ginning

Establishments primarily engaged in ginning cotton.

Cotton ginning
Cotton pickery

0729 General Crop Services

Establishments primarily engaged in providing a combination of services from soil preparation through harvest, except farm labor and management services which are classified in Group 076.

Crop services, general

074 VETERINARY SERVICES

0741 Veterinary Services for Livestock, Except Animal Specialties

Establishments of licensed practitioners primarily engaged in the practice of veterinary medicine, dentistry, or surgery, for cattle, hogs, sheep, goats, and poultry. Establishments of licensed practitioners primarily engaged in treating all other animals are classified in Industry 0742.

Animal hospitals for livestock, except animal specialties
Veterinarians for livestock, except animal specialties
Veterinary services for livestock, except animal specialties

0742 Veterinary Services for Animal Specialties

Establishments of licensed practitioners primarily engaged in the practice of veterinary medicine, dentistry, or surgery, for animal specialties. Animal specialties include horses, bees, fish, fur-bearing animals, rabbits, dogs, cats, and other pets and birds except poultry. Establishments of licensed practitioners primarily engaged in veterinary medicine for cattle, hogs, sheep, goats, and poultry are classified in Industry 0741.

Animal hospitals for pets and other animal specialties
Veterinarians for pets and other animal specialties
Veterinary services for pets and other animal specialties

075 ANIMAL SERVICES, EXCEPT VETERINARY

0751 Livestock Services, Except Services for Animal Specialties

Establishments primarily engaged in performing services, except veterinary, for cattle, hogs, sheep, goats, and poultry. Dairy herd improvement associations are also included in this industry. Establishments primarily engaged in the fattening of cattle are classified in Industry 0211. Establishments engaged in incidental feeding of livestock as a part of holding them in stockyards for periods of less than 30 days (generally in the course of transportation) are classified in Industry 4789. Establishments primarily engaged in performing services, except veterinary for animals, except cattle, hogs, sheep, goats, and poultry are classified in Industry 0752.

Group No. Industry No.

075 ANIMAL SERVICES, EXCEPT VETERINARY—Continued

0751 Livestock Services, Except Services for Animal Specialties—Continued

Artificial insemination
Breeding of livestock, except animal specialties
Catching poultry, with no hauling

Cleaning poultry coops
Dairy herd improvement associations
Livestock breeding services, except for animal specialties
Milk testing, for butterfat, etc.
Pedigree record services, for cattle, hogs, sheep, goats, and poultry
Sheep dipping and shearing
Showing of cattle, hogs, sheep, goats, and poultry
Slaughtering, custom: for individuals
Vaccinating livestock except animal specialties, except by veterinarians

0752 Animal Specialty Services

Establishments primarily engaged in performing services, except veterinary, for pets, equines, and other animal specialties. Establishments primarily engaged in performing services other than veterinary for cattle, hogs, sheep, goats, and poultry are classified in Industry 0751.

Boarding kennels
Boarding or training horses (including race horses)
Breeding of animals other than cattle, hogs, sheep, goats, and poultry
Dog grooming
Honey straining (on the farm)
Pedigree record services for pets and other animal specialties
Showing of pets and other animal specialties
Training of pets and other animal specialties
Vaccinating pets and other animal specialties, except by veterinarians

076 FARM LABOR AND MANAGEMENT SERVICES

0761 Farm Labor Contractors and Crew Leaders

Establishments primarily engaged in supplying labor for agricultural production or harvesting. Establishments primarily engaged in machine harvesting are classified in Industry 0722.

Crew leaders, farm labor: contract
Farm labor contractors

0762 Farm Management Services

Establishments primarily engaged in providing farm management services, including management or complete maintenance of citrus groves, orchards, and vineyards. Such activities may include cultivating, harvesting, or other specialized activities, but establishments primarily engaged in performing such operations without management services are classified in the appropriate specific industry within Group 072.

Citrus grove management and maintenance, with or without crop services
Farm management services
Orchard management and maintenance, with or without crop services
Vineyard management and maintenance, with or without crop services

078 LANDSCAPE AND HORTICULTURAL SERVICES

0781 Landscape Counseling and Planning

Establishments primarily engaged in performing landscape planning, architectural, and counseling services.

Garden planning
Horticultural advisory or counseling services
Landscape architects
Landscape counseling
Landscape planning

0782 Lawn and Garden Services

Establishments primarily engaged in performing a variety of lawn and garden services.

Bermuda sprigging services
Cemetery upkeep, independent
Garden maintenance
Garden planting
Lawn care
Lawn fertilizing services
Lawn mowing services
Lawn spraying services
Lawn sprigging services
Mowing highway center strips and edges

1980 U.S. Industrial Outlook for 200 industries with projections for 1984

An objective industry-by-industry analysis of a major part of the Nation's economy

Useful to anyone who needs an overview of U.S. industry. Used widely by those responsible for

Marketing & market planning
Financial planning
Credit operations
Investment
State & regional development
Economic studies & counseling

Special features in the 1980 edition:

- Economic assumptions
- Climate for small business in the eighties
- Rankings of U.S. industries by growth prospects for 1 and 5 years ahead
- Input-output charts for key industries

Covers over 200 manufacturing and service industries. More than 500 pages with trend charts, industry profiles, tables of trends and projections, and input-output charts for key industries.

This 500-page book is the work of nearly 100 industry specialists and economists. Data is gathered from private sources and from the major Government statistical bureaus, including:

PUBLICATION PROGRAM

PRELIMINARY REPORTS

Census of Agriculture—A separate report is being published for each county in the United States with 10 farms or more, each State, the four geographic regions, and the United States. These reports contain data for all farms and for farms with sales of $2,500 or more. Limited data are shown for agricultural operations with less than $1,000 in sales that would have qualified as census farms under the definition prior to the current one.

Census of Agricultural Services—A two-page preliminary report is being published for each State that includes data for the number of establishments by primary activity, gross receipts, and payroll.

The statistics in these reports are superseded by those in the final reports, volumes 1 through 5.

FINAL REPORTS

Volume 1. State and County Data—56 reports (AC78-A-1 to 56)

A separate report is being published for each State, the United States, Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, and the Northern Mariana Islands. Data are presented for each area and its subdivisions. The reports for States show data for all farms and for farms with sales of $2,500 or more. Included are several tables providing data for agricultural operations with less than $1,000 in sales that would have qualified as farms under the definition prior to the current one. Each State report is divided into three chapters: Chapter 1 contains detailed data at the State level classified by size of farm, tenure, age and occupation of operator, type of organization, value of products sold, and major standard industrial classification (types) of farms; chapter 2 contains data at the county level for selected major items, and miscellaneous crop, livestock, and poultry items; chapter 3 contains detailed data for the State and each county.

Volume 2. Statistics by Subject—9 reports (AC78-S-1 to 9)

Separate parts are being published with totals for the United States, regions, divisions, and States. Data will be shown for all farms and for farms with sales of $2,500 or more.

The titles of the nine separate parts are: 1. General Information: Procedures for Collection, Processing, and Classification; 2. Farms: Number, Acreage, Value of Land and Buildings, Land Use, Size of Farm; 3. Tenure, Type of Organization, Operator Characteristics, Principal Occupation; 4. Farm Expenditures, Labor, Equipment and Facilities, Chemicals; 5. Livestock, Poultry, Livestock and Poultry Products, Fish, Animal Specialties; 6. Crops, Nursery and Greenhouse Products; 7. Value of Products, Value of Sales Group, Other Income; 8. Standard Industrial Classification of Farms; 9. Irrigation on Farms.

Volume 3. Agricultural Services—1 report (AC78-AS)

The report presents data for establishments primarily engaged in soil preparation services, crop services, veterinary services, other animal services, farm labor and management services, or landscape and horticultural services.

This report presents data for each county, each State, and the United States. The data cover dollar volume of business, payroll, supplemental labor costs, gross receipts by type of services performed, labor and payroll, gross receipts from products provided in connection with services performed, capital expenditures, changes in gross value of depreciable assets, and expenditures for energy and petroleum products. Selected statistics are shown for the 4-digit standard industrial classification codes and by size and type of organization.

Volume 4. Irrigation—1 report (AC78-IR)

Irrigation data collected in the 1978 Census of Agriculture and in the census of irrigation of water-supply organizations will be published by regions, divisions, States, and for drainage basins. On-farm irrigation data will include irrigated crop acreages and classifications of irrigated land use. Irrigation organization data will include number of farms served, irrigated acres served, quantities of water used and conveyed, inventory of irrigation facilities and equipment, and financial characteristics.

Volume 5. Special Reports—9 reports (AC78-SR-1 to 9)

These reports are based on additional tabulations of the census data, evaluation studies, and follow-on surveys conducted for calendar year 1979 to obtain additional data on specialized subjects.

The nine reports are entitled: Graphic Summary, Ranking Counties and States, Coverage Evaluation, Procedural History, Drainage of Agricultural Lands, Farm Finance Survey, Census of Horticultural Specialties, Farm and Ranch Irrigation Survey, and Farm Energy Survey.
